

VINYL SHARE 1155 NFTS

Tokenized Real-World Asset Regulation D Offering

Mission statement:
Bridging Tokenized
Real-World Assets (RWA)
and Music-Based Revenue
Streams

What is a Vinyl Share 1155 NFT?

Vinyl Share 1155 NFTs are more than just a collectible—it's a revolutionary Tokenized Real-World Asset (RWA) security that gives you ownership in a groundbreaking cultural movement. Combining a physical 12-inch vinyl recording with an ERC1155 NFT, Vinyl Share NFTs provide both music fans and crypto investors with a unique opportunity to earn revenue from the exploitation of the Underlying Track.

The Underlying Track

Special Purpose Vehicle (SPV) for Each Vinyl Share

For every Vinyl Share 1155 NFT offering, a dedicated Special Purpose Vehicle (SPV) is established. The master recording and copyrights of the Underlying Track are transferred into the SPV, ensuring that all rights and royalties are securely held within a legally defined structure. This allows investors to directly benefit from the track's performance while safeguarding their assets.

The Staking Portals

Our Four Innovative Staking Products

Water Portal

Vinyl Shareholders can stake their Vinyl Share 1155 NFT here to earn royalties from the Underlying Track.

Fire Portal

Vinyl Shareholders can stake their Vinyl Share 1155 NFT here to earn from the live performances of the Underlying Track.

Earth Portal

Vinyl Shareholders can stake their Vinyl Share 1155 NFT here to score concert tickets, sporting event tickets and more.

Air Portal

Vinyl Shareholders can stake their Vinyl Share 1155 NFT here to score high end merch, streaming service bundles and more.

The Water Portal

The SPV collects royalties from our distribution partner, CDBaby, and converts them into ERC20 US Dollar Stable Coins. These stable coins are deposited into the Water Portal staking smart contract, which automatically distributes them to Vinyl Shareholders who have staked their NFTs in the portal, providing a seamless flow of income directly from the track's performance.

The Fire Portal

Vinyl Shareholders earn 'Show Money' through the Fire Portal. The SPV collects a 15% fee from all Vinyl Share artist performances, converting the revenue into ERC20 US Dollar stable coins. These funds are deposited into the staking smart contract, allowing Vinyl Shareholders who have staked in the Fire Portal to receive their share of the performance earnings seamlessly.

The Earth Portal

Imagine floor seats at an NBA game or orchestra seats at a Broadway show—through the Earth Portal, Vinyl Shareholders unlock exclusive event experiences. By staking your NFTs, you gain access to premium live entertainment, from courtside to front-row performances, making your investment more than just music—it's a ticket to unforgettable moments.

The Air Portal

Why pay for streaming services like Netflix or Hulu when you can stake your Vinyl Share to unlock exclusive streaming bundle deals? In the Air Portal, you can also score luxury merchandise from top brands like Gucci and Louis Vuitton at up to 60% off. Stake your way to premium perks that take your Vinyl Share investment beyond music and into the world of high-end rewards.

Investment Opportunity and Terms:

For a minimum mint of 1,000 Vinyl Share 1155 NFTs, in addition to all of the staking products available your firm will receive:

- 3.4% Equity of the Special Purpose Vehicle (SPV) of choice. Per 1,000 mints.
- 30% discount off total mint fee, enhancing your return on investment.
- Whitelisting and First Refusal rights to future Vinyl Share NFT offerings, securing your position at the forefront of upcoming opportunities.
